How to build the navigation

To build your navigation you first need to go into Appearance - Menus.

Main Navigation

To build your main navigation you need to select the Main Menu option in the drop down and press select.

Menus [Manage with Live Preview](#)

[Edit Menus](#) [Manage Locations](#)

Select a menu to edit: Main Menu - EN (Main menu English) ▼ [Select](#) or [create a new menu.](#)

The new item added will appear at the end of the list visible on the right side. By expanding the item, you will be able to: change the label that will appear on the website, move the item up/down, remove the item.

The screenshot shows a configuration panel for a menu item labeled "COVID-19". At the top right, there is a "Page" dropdown menu with an upward-pointing triangle. Below this, the "Navigation Label" is set to "COVID-19" in a text input field. Underneath, there is a section titled "Trigger a Popup" with a downward-pointing triangle. Below that, a text instruction reads "Choose a popup to trigger when this item is clicked." followed by three blue links: "Move Up one", "Under Sport", and "To the top". At the bottom of this section, it says "Original: COVID-19". At the very bottom of the panel, there are two buttons: "Remove" in red and "Cancel" in blue.

To add a new item that links to a **Custom link**, you need to select the type Custom Links, add a URL, add the label in the field Link text and press Add to Menu.

Custom links are used to 1) create the main items visible on the main nav (example: Play Golf) and 2) add sub-navigation items that redirect to external sites.

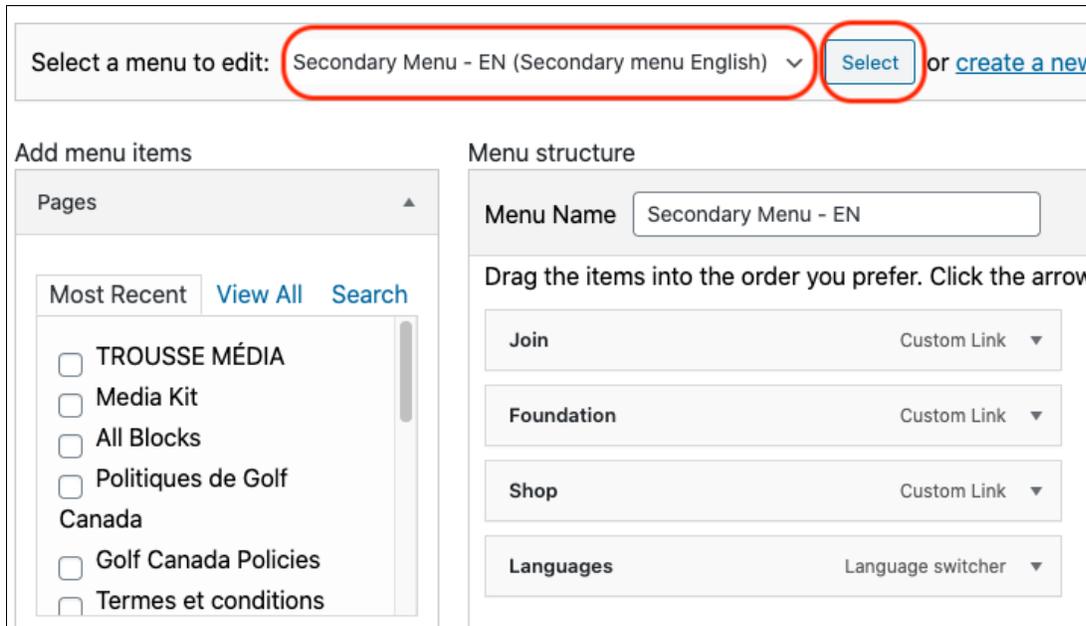

The screenshot shows a form titled "Add menu items". It features a list of menu item types with dropdown arrows: "Pages", "Posts", "Golf Facility", "Competitions", "Custom Links" (which is highlighted and has an upward-pointing triangle), and "Categories". Below the list, there are two input fields: "URL" containing "https://" and "Link Text" which is empty. To the right of the "Link Text" field is a blue button labeled "Add to Menu".

Don't forget to save after making changes

Secondary navigation

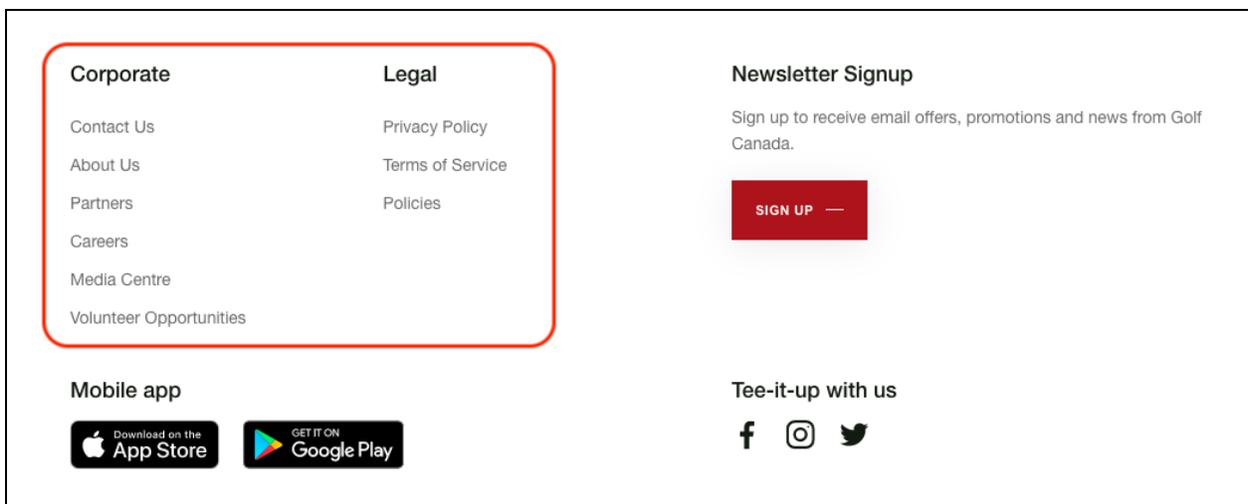

To build your secondary navigation you need to select the Secondary Menu option in the drop down and press select.

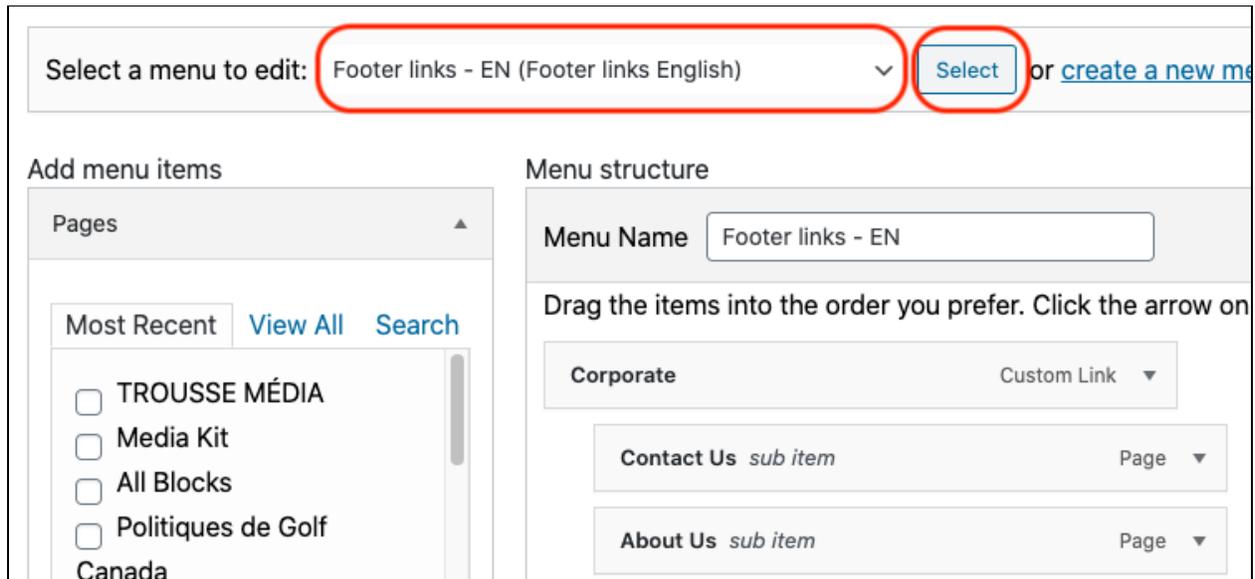

Same principle as the Main Menus where you can add Custom Links or Pages.
Don't forget to Save after making changes

Footer

To build your footer you need to select the Footer links option in the drop down and press select.

Same principle as the Main Menus where you can add Custom Links or Pages.

Don't forget to Save after making changes.

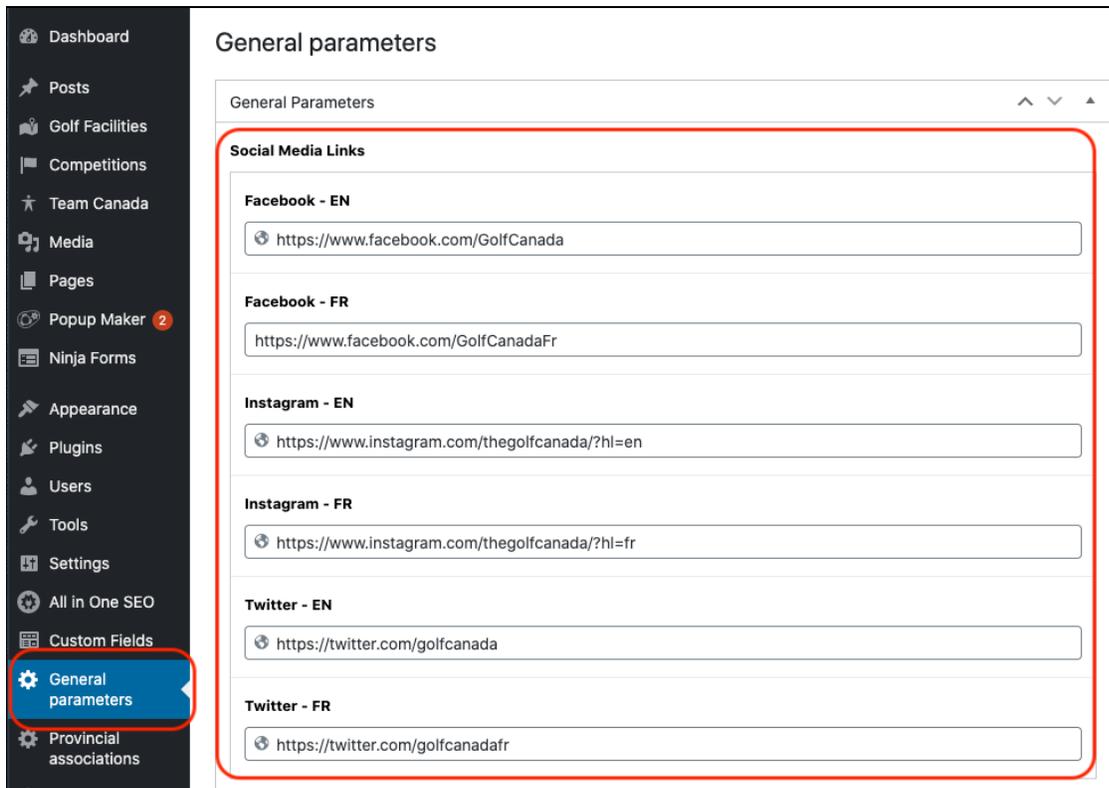

How to set the General Parameters for your website

The General Parameters section is where you go to:

- Add your Social Media links
- Add the URLs for the boutons Login/Member Area/Post a score/Become a member
- Add the images you want to display in the sub-menus
- Add your Newsletter link
- Setup the Newsletter popup above the map

Social media

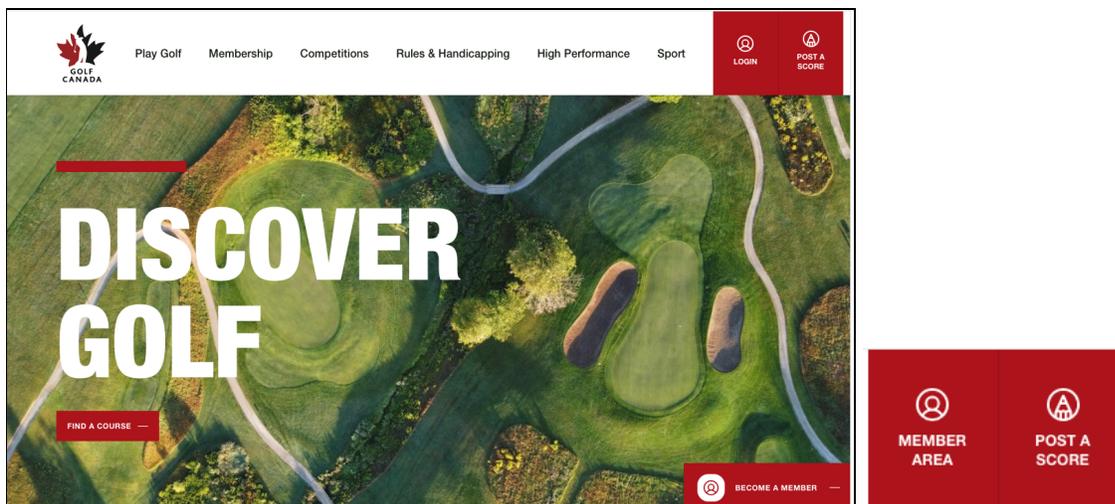

Add the social media links you want to see featured on your website. They will appear on the Footer.

Login/Post a score/Become a member/Member area

On the same page, in the External Services Links, is where you add the urls for each of the following buttons:

- Login (visible in the main nav)
 - Becomes Member area when the user is logged in
- Post a score (visible in the main nav)
- Become a member (sticky button on the home screen)

External Services Links

External link - FR	<input type="text"/>

Newsletter popup above the map

On the same page, in the Course Search Newsletter section is where you set up the parameters that control the visibility of the popup appearing after using the map feature.

- The first field allows you to set the maximum number of times the popup will be displayed in 1 month.
- The second field is where you decide after how many page views the popup must be visible.

Courses Search Newsletter	
Maximum number of occurrences in a month for a user	<input type="text"/>
Page hit count visibility threshold After how many visibility of the search page we display the popup	<input type="text"/>

How to add the provincial sites in the footer

The Provincial associations section is where you go to add the provincial sites. For each site, you need to add the name, the logo and the URL.

First Tee Canada

Golf Canada and First Tee partnered to launch First Tee – Canada in 2021. The partnership will see First Tee’s youth development emphasis strengthen Golf Canada’s junior golf activities that reach kids in schools and golf facilities. The innovative First Tee curriculum will focus on empowering young people to build character through the game of golf. Multiple chapters are targeted to launch in 2021 (British Columbia, Ontario and Quebec) with additional chapters being established across Canada through 2023.

Golf Fore the Cure is all about using the sheer power of women playing the game of golf to make a difference.

Title

Paragraph

IMPROVING PACE OF PLAY

Pace of play has become a hot button issue facing the golf industry in Canada and abroad.

The fact is, golfers see and golfers do. The swing habits and on course routines we see each week on the professional tours are all too often mirrored at the recreational level.

Count me among those who believe a few more slow play penalties assessed at the pro level would go a long way towards educating everyday golfers about the ready position.

But pace of play is not simply a Rules of Golf issue. It's an entire industry issue rooted in the culture of golf. That culture is ultimately set by the golfing bodies, the clubs, the professionals, the superintendents and especially the golfers themselves.

So how do we promote change? It starts with educating golfers on simple ways to play faster: playing ready golf; continuous putting; moving quickly from greens to tees; and for a great many of us, playing from the skill-appropriate tees and distances for a most enjoyable golf experience.

How to add anchors on the block Page Title

The first step consists of adding the block **Page Title** that supports the anchors.

The next steps are as followed:

1. Add a title on your page using the block Heading
2. Select the Advanced option (of the block Heading previously added) and enter a unique name in the HTML anchor field
3. Select the block Page Title at the top of your page and select the button Add anchor
4. Enter the label which should be the title visible on the page
5. Copy the HTML anchor entered previously and paste it in the field value

Same steps for each anchor you want to add on your page.

The screenshot shows a page editor interface for a heading block. The heading is titled "[TEST PAGE]". The configuration panel for the heading includes a "Tag" dropdown set to "h1", a "Title" field containing "Block Page Title", and an "Anchors" table. The "Anchors" table has one row with the following data:

	label *	value *
1	<input type="text" value="Anchor 1"/>	<input type="text" value="testpage_anchor1"/>

Below the table is an "Add anchor" button. The right sidebar shows the "Advanced" settings for the heading, with the "HTML anchor" field set to "testpage_anchor1".

This screenshot is similar to the one above, but the "Anchors" table is highlighted with a red border. The "label" field contains "Anchor 1" and the "value" field contains "testpage_anchor1".

How to add the + on the table block

The first step consists of adding the block **Table**.

Then you need to:

1. Create your table
2. Open the Advanced options
3. Input "is-view-more" in the field Additional CSS class(es)

Integer posuere erat a ante venenatis dapibus posuere velit aliquet. Etiam porta sem malesuada magna mollis euismod. Maecenas faucibus mollis interdum.

Etiam porta sem malesuada magna mollis euismod. Integer posuere erat a ante venenatis dapibus posuere velit aliquet. Maecenas faucibus mollis interdum. Integer posuere erat a ante venenatis dapibus posuere velit aliquet. Vivamus sagittis lacus vel augue laoreet rutrum faucibus dolor

Column 1	Column 2
item 1	sub-item 1
item 2	sub-item 2
item 3	sub-item 3
item 4	sub-item 4
item 5	sub-item 5
item 6	sub-item 6
item 7	sub-item 7

HTML anchor

Enter a word or two — without spaces — to make a unique web address just for this heading, called an "anchor." Then, you'll be able to link directly to this section of your page.

[Learn more about anchors](#)

Additional CSS class(es)

Separate multiple classes with spaces.

The + button appears after the fifth row:

Column 1	Column 2
item 1	sub-item 1
item 2	sub-item 2
item 3	sub-item 3
item 4	sub-item 4
+	

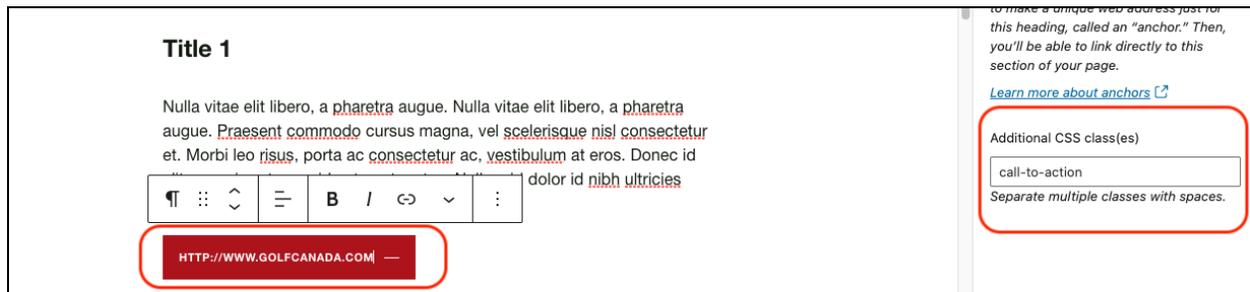

How to add a button with your accent color

Title 1

Nulla vitae elit libero, a pharetra augue. Nulla vitae elit libero, a pharetra augue. Praesent commodo cursus magna, vel scelerisque nisl consectetur et. Morbi leo risus, porta ac consectetur ac, vestibulum at eros. Donec id elit non mi porta gravida at eget metus. Nullam id dolor id nibh ultricies vehicula ut id elit.

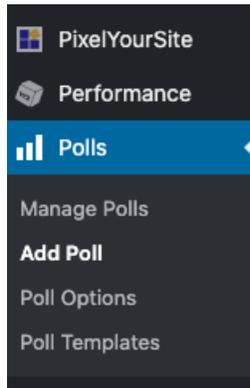

[HTTP://WWW.GOLFCANADA.COM](http://www.golfcanda.com)

If you want to add a call to action that is more visually appealing and is styled with your accent color you simply need to add a block Paragraph, add a link (URL), open the Advanced options and enter "call-to-action" in the field Additional CSS class(es).

How to create a Poll

If you want to add a poll you need to go into Polls - Add poll:

The plugin allows you to enter the question, the answers and set some settings.

Add Poll

Poll Question

Question

Poll Answers

Answer 1 [Remove](#)

Answer 2 [Remove](#)

[Add Answer](#)

Poll Multiple Answers

Allows Users To Select More Than One Answer? No

Maximum Number Of Selected Answers Allowed? 1

Poll Start/End Date

Start Date/Time 23 March 2021 @ 13 : 49 : 25

End Date/Time Do NOT Expire This Poll

[Add Poll](#) [Cancel](#)

The **Manage polls** section displays all the available pools and most importantly the IDs, which are required to add a poll to a page.

Manage Polls

Polls

ID	Question	Total Voters	Start Date/Time	End Date/Time	Status	Action
4	Displayed: This is a test to show how poll are added	0	March 23, 2021 @ 1:49 pm	No Expiry	Open	Logs Edit Delete
3	Qu'est-ce qui vous emballe le plus à l'aube de la saison de golf ?	35	March 8, 2021 @ 11:07 am	No Expiry	Open	Logs Edit Delete
2	What are you most excited for this golf season?	296	March 8, 2021 @ 10:36 am	No Expiry	Open	Logs Edit Delete
1	How Is My Site?	5	February 16, 2021 @ 4:15 pm	No Expiry	Open	Logs Edit Delete

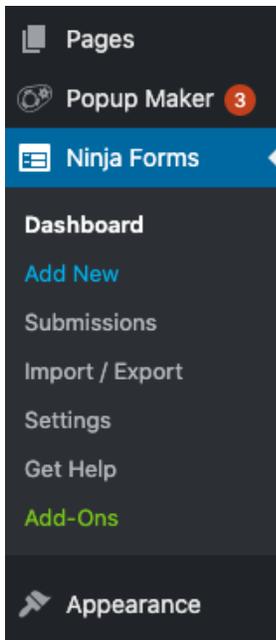

To add a poll to a page you need to:

1. Copy the poll ID
2. Open the page where you want to display the poll
3. Add a Poll block and paste the poll ID

The image shows a form configuration interface with two main sections. The first section is labeled 'Title *' and contains a text input field with the word 'Poll' entered. The second section is labeled 'Poll ID *' and contains a text input field with the number '4' entered. To the right of this input field is a tooltip that reads 'Poll ID can be seen in polls list in Polls > Managing Polls.'

How to create a form

If you want to add a form you need to go into Ninja Forms - Add New:

The plugin offers many types of form to choose from. Select the form that fits your needs, edit the fields available, add new fields using the plus button and Publish your form once it's ready.

To add a form to a page you need to:

4. Copy the Form ID number
5. Open the page where you want to display the form
6. Add a Form block and paste the form ID number between ''
 - a. **Important: the ID must be written like: [ninja_form id='1']**

[ADD NEW](#) 🔍 Search Forms

How to add a competition

If you want to add a competition you need to go into Competitions - Add new and go through the form:

Add title

Name of the competition

Start writing or type / to choose a block

Competitions

Logo *

No image selected

Add Image

Name *

Start date *

End date *

Year date *

Date override - EN

Use this to override the date displayed in the list

If you want to override the date with text (example: Cancelled)

Date override - FR

The links are used to display icons in the Info section of the calendar. Each link has its own icon.

Practice rounds start date
<input type="text"/>
Practice rounds end date
<input type="text"/>
Link info URL
<input type="text"/>
Link register URL
<input type="text"/>
Link volunteer URL
<input type="text"/>
Link tickets URL
<input type="text"/>

When creating a competition you have 3 options (see image below):

Option 1 - External URL: if you want to redirect the user to another website, simply copy/paste the URL in that field. By doing so, the competition name (in the calendar) will be clickable and will open the other site.

Option 2 - No associated page: if you don't want to redirect users to another URL or a specific page on the site, simply select the checkbox. By doing so, the competition name (in the calendar) won't be clickable.

Option 3 - Add a page for the competition: if you want to add a specific page about the event, do not add an external link and do not check the checkbox. By doing none of the above, the competition name (in the calendar) will be clickable and will open a page on the website (see next section).

Gender *

Type *

Professional

Location city

Location province

- Select -

Location course

Select

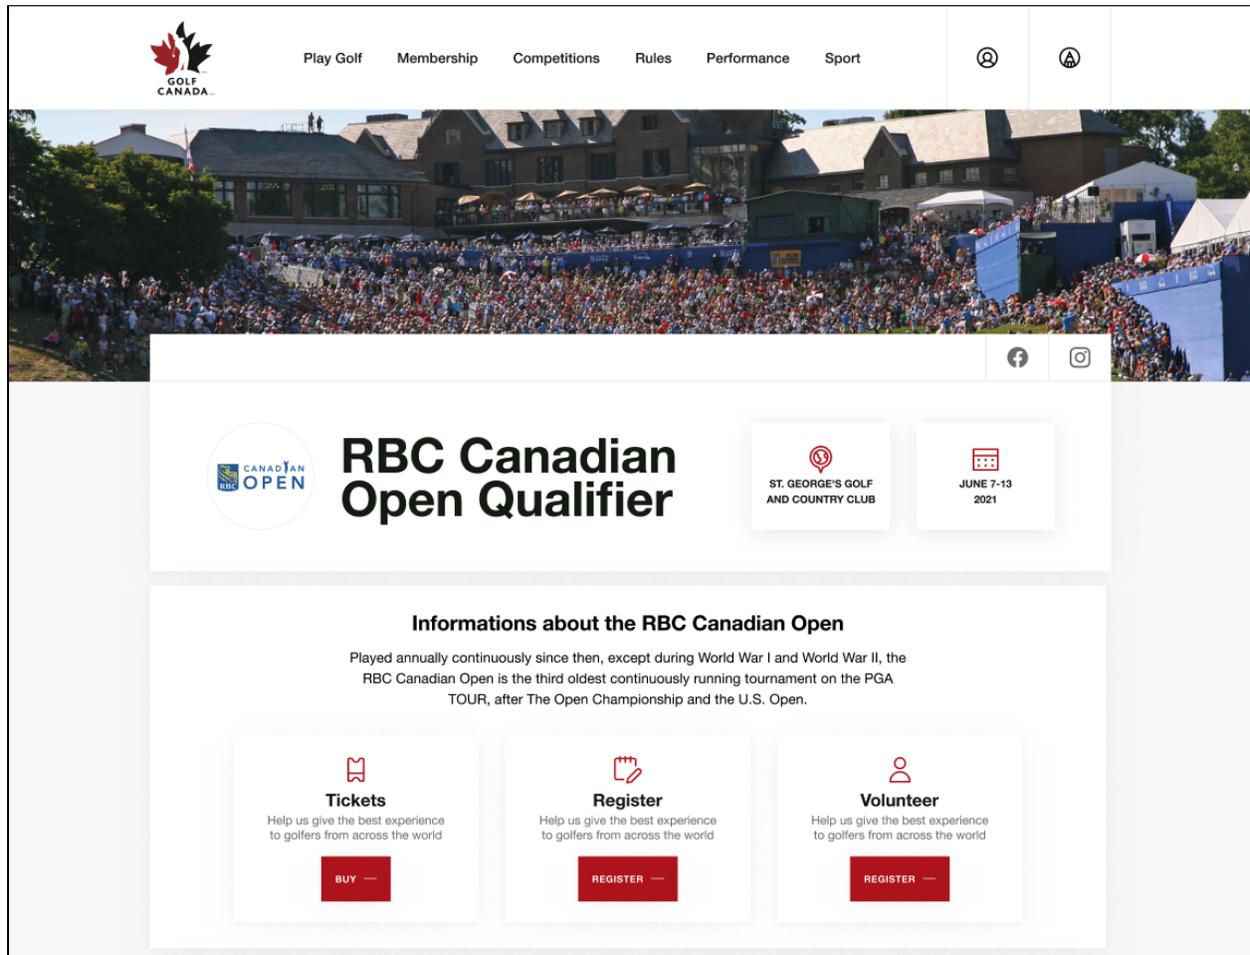

External URL

If used, the link in the competitions list will redirect to this URL

No associated page

If checked, the link in the competitions list will not be clickable

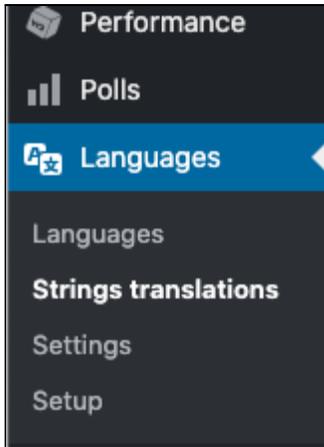

How to add a competition page

Most of the content is already added when creating a competition for the calendar. Like the name, logo, date, course and options.

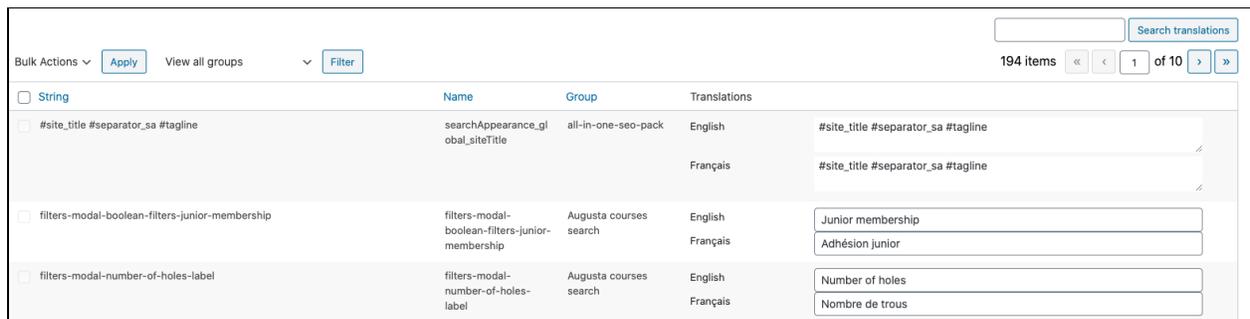

To create a competition page, the following fields must be filled:

- The banner image must be added in the 'banner' field
- The text above the options tickets, register, volunteer can be added in the 'Description' field (optional)
- Blocks of content can be added below the custom layout (below the options tickets, register, volunteer). Simply use the + sign below the page title to add the wanted block.

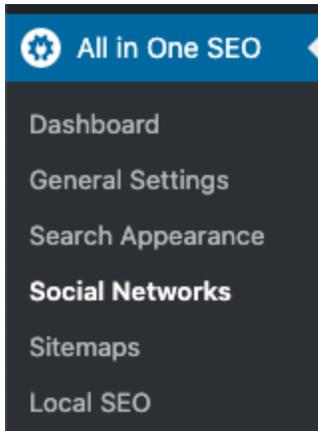

To change an existing string use the search bar to look for it and update the english version (and french for those who support both languages) to the wanted text.

Don't forget to press the 'Save changes' button once you are done.

How to set OG images

To set your OG images, you need to select All in One SEO - Social Networks:

In the **Social Profiles** tab you need to enter the URLs of your different social networks.

A screenshot of the AIOSEO Social Networks settings page. The page title is "AIOSEO / Social Networks". There are tabs for "Social Profiles", "Facebook", "Twitter", and "Pinterest", with "Social Profiles" selected. A "Save Changes" button is in the top right. Below the tabs, there's a section titled "Social Profiles" with a dropdown arrow. The text says "To let search engines know which profiles are associated with this site, enter them below:". There is a checkbox labeled "Use the same username for multiple social networks" which is unchecked. Below this are input fields for various social media URLs:

- Facebook Page URL:
- Twitter URL:
- Instagram URL:
- Pinterest URL:
- YouTube URL:
- LinkedIn URL:

In the **Facebook** tab I recommend selecting the Featured image as the image source and add a default image in case there's no Featured image available.

AIOSEO / Social Networks

Social Profiles **Facebook** Twitter Pinterest Save Changes

General Facebook Settings

Enable this feature if you want Facebook and other social media to display a preview with images and a text excerpt when a link to your site is shared. [Learn More](#) →

Enable Open Graph Markup

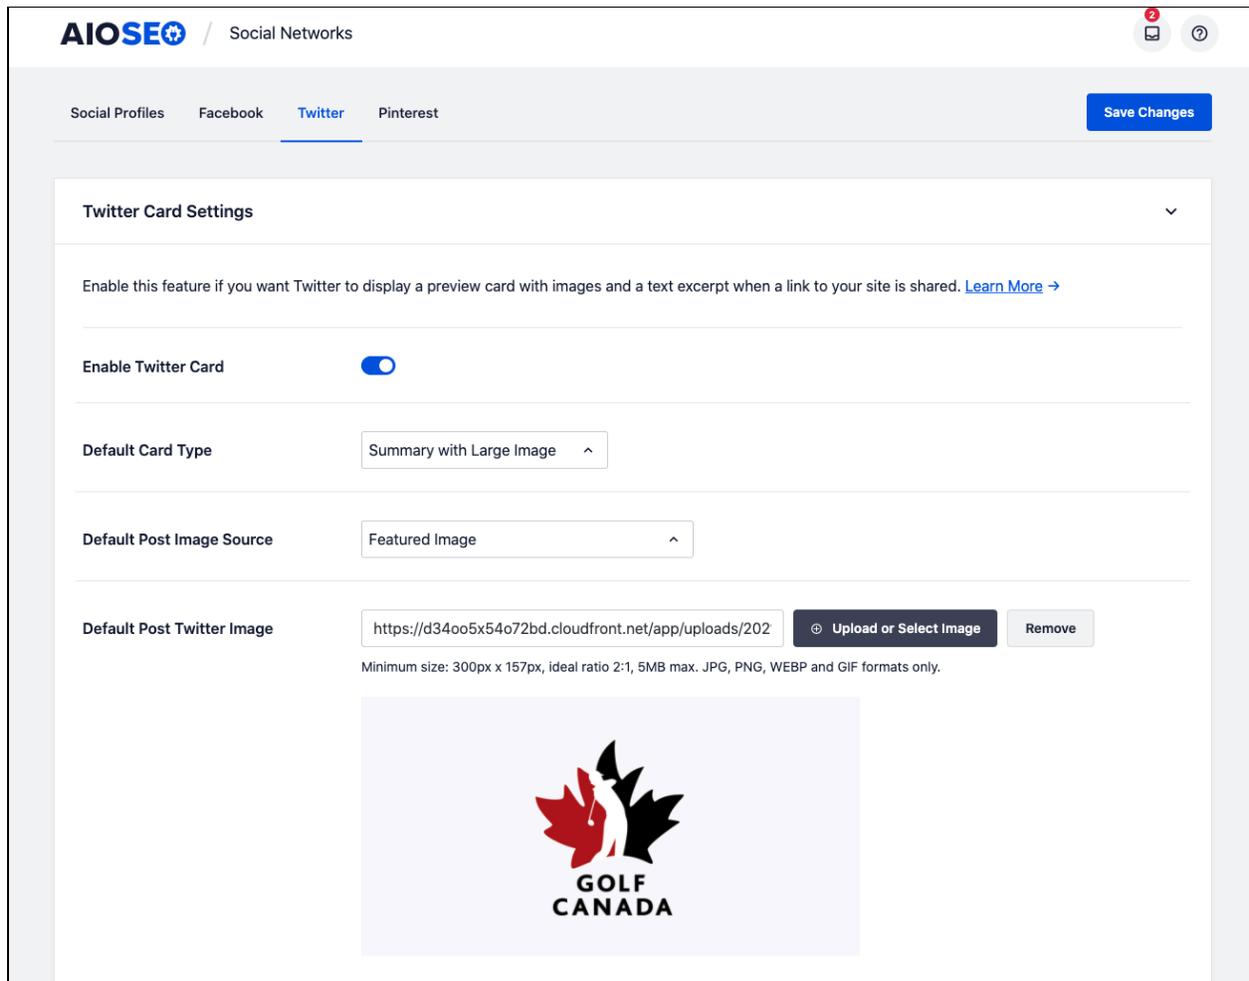

Default Post Image Source

Default Post Facebook Image Upload or Select Image Remove

Minimum size: 200px x 200px, ideal ratio 1.91:1, 8MB max. (eg: 1640px x 856px or 3280px x 1712px for retina screens)

In the **Twitter** tab I recommend selecting the Featured image as the image source and add a default image in case there's no Featured image available.

How to make sure your site is indexed by the search engines

When your site goes live, make sure to uncheck the box "Discourage search engines from existing this site". This checkbox must be unchecked as long as the site is live.
